Amendments to the Claims:

Listing of Claims:

- 1. (Canceled)
- 2. (Currently Amended): The immunogenic composition of claim 13, wherein the Dam activity is altered <u>dam</u> gene is non-revertably inactivated by a second heterologous nucleotide sequence.
- 3. (Canceled)
- 4. (Previously presented): The immunogenic composition of claim 2, wherein the first heterologous sequence is operatively inserted into a first plasmid and further wherein the second heterologous sequence is operatively inserted into a second plasmid.
- 5-6. (Canceled)
- 7. (Previously presented): The immunogenic composition of claim 13, wherein the live attenuated bacteria is altered relative to its wild-type form by a genetically engineered change in its DNA which change is a non-lethal, non-reverting mutation which renders the bacteria attenuated.
- 8-12. (Canceled)
- 13. (Currently amended): An immunogenic composition, comprising:
 a pharmaceutically acceptable excipient; and
 an attenuated form of live bacteria with a DNA adenine methylase (Dam) activity
 altered relative to the Dam activity of the wild-type, unaltered, pathogenic form of the live

bacteria, with the alteration being in a manner which renders the live bacteria attenuated, wherein the Dam activity is altered by a mutation in the Dam gene; and

a first heterologous nucleotide sequence operatively inserted in the live attenuated bacteria which first heterologous sequence expresses a heterologous <u>immunoprotective</u> antigen, wherein the heterologous antigen is selected from the group consisting of: an antigen of *Vibrio cholera*, an antigen of a microorganism which causes a respiratory infection, an antigen of a microorganism which causes a sexually transmitted disease, an hepatitis B surface antigen, an antigen of a pathogenic virus, an antigen of a pathogenic bacteria, and an antigen of a microorganism which causes an enteric infection.

14-19. (Canceled)

20. (Previously presented): The immunogenic composition of claim 13, wherein the microorganism which causes a sexually transmitted disease is HIV.

21-31. (Canceled)
